

LUCA CARINELLI

Calgary, AB | (587) 999-9415 | carinelliluca@gmail.com | lucacarinelli.ca

PROFESSIONAL SUMMARY

Recent mechanical engineering graduate (University of Victoria, April 2026, GPA 3.5/4.0, specialization in thermo-fluids) with three engineering co-op terms across upstream oil and gas operations, mechanical systems consulting, and aerospace manufacturing. Proficient in SolidWorks, AutoCAD, and Revit. Strong foundation in thermodynamics, fluid mechanics, heat transfer, mechanical design, and engineering documentation. Comfortable working across multidisciplinary project teams in fast-paced professional environments. Eligible for registration as an EIT with APEGA. Based in Calgary and available immediately.

EXPERIENCE

Intern EH&S Engineer | *Ovintiv* | Calgary, AB

May 2025 – Aug 2025

- Performed pipeline risk analysis for 500+ sour gas pipeline segments using AERH2S software, producing technical deliverables aligned with Alberta Energy Regulator requirements and project schedules.
- Built a master Excel tracking and documentation system for 500+ pipeline segments adopted as the standardized workflow for future EPZ recalculation projects, improving team efficiency and data accuracy.
- Coordinated across engineering, operations, and HSE teams to produce regulatory compliance documentation within project timelines.

Methods Engineer Co-op Student | *De Havilland Aircraft of Canada* | Victoria, BC

Sep 2023 – Dec 2023

- Produced detailed SolidWorks 3D models and toleranced engineering drawings for 200+ aircraft components within a precision aerospace manufacturing environment, adhering to formal QMS and engineering change control standards.
- Collaborated with Methods, Production, Quality, and Engineering teams, gaining practical understanding of how design decisions affect fabrication and assembly outcomes.

Mechanical Engineering Intern | *Stantec Consulting Ltd.* | Calgary, AB

Apr 2022 – Aug 2022 | Apr 2023 – Aug 2023

- Designed mechanical systems for commercial and institutional projects using AutoCAD and Revit, preparing engineering drawings, equipment schedules, and specifications under senior engineer supervision across two co-op terms.
- Performed engineering calculations for system sizing and coordinated with architects and engineers across multidisciplinary project teams on live client deliverables.

TECHNICAL SKILLS

CAD and Design: SolidWorks, AutoCAD, Revit, Siemens NX; engineering drawings, GD&T, tolerancing, BOMs, engineering change control, PDM

Engineering: Thermodynamics, fluid mechanics, heat transfer, structural mechanics, machine design, materials selection, pressure systems, piping systems

Mechatronics: Sensors, actuators, applied electronics, control systems fundamentals; electromechanical system concepts

Data and Analysis: MATLAB, Excel, numerical analysis, data tracking systems, engineering calculations

Professional: Technical writing, documentation, cross-disciplinary coordination, Microsoft Office Suite; minor in business (financial accounting, management accounting, finance)

EDUCATION

Bachelor of Engineering, Mechanical Engineering

University of Victoria | Graduated April 2026 | GPA: 3.5/4.0

- Specialization in Thermo-Fluids and Aerodynamics
- Minor in Business (Financial Accounting, Management Accounting, Management Finance)
- Co-op program: three terms across energy operations, engineering consulting, and aerospace manufacturing

ADDITIONAL

- Eligible for registration as an Engineer-in-Training (EIT) with APEGA
- Legally eligible to work in Canada; valid Class 5 driver's licence; available immediately
- Portfolio: lucacarinelli.ca
